Alomran Contracting LLC

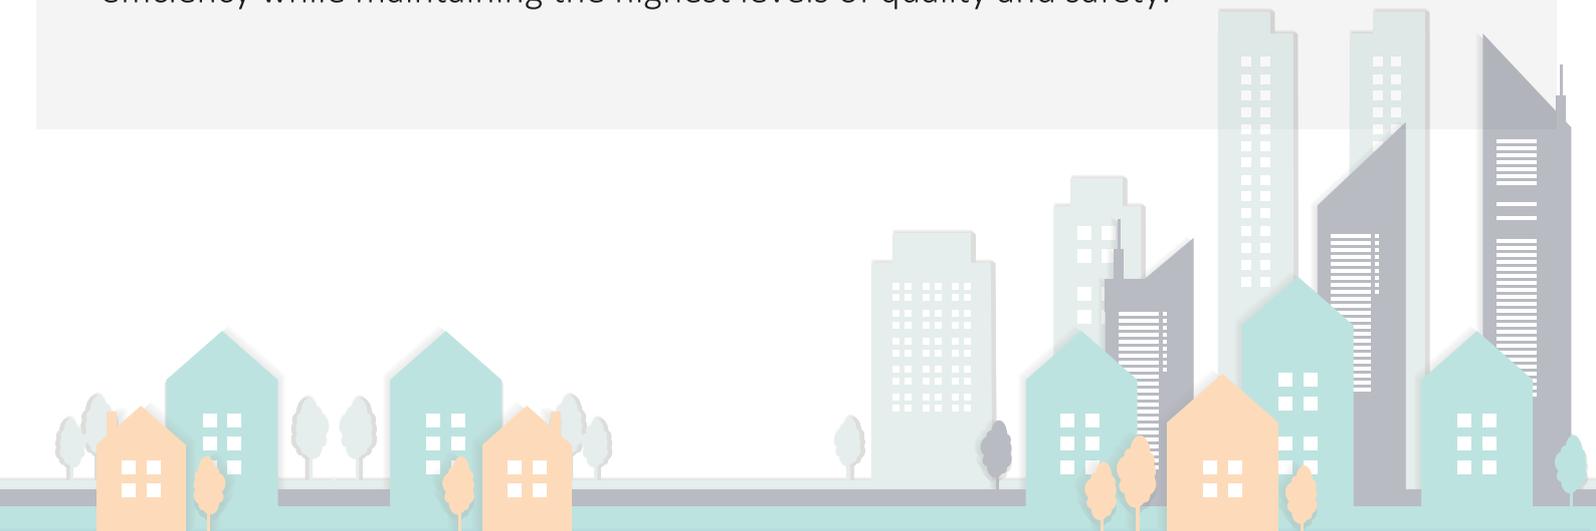

Established in UAE in 2014, Alomran has continued to develop a wide range of construction capabilities and expand operations within UAE. Alomran's platform for growth is based on specialist construction techniques backed with customised design, engineering and management services. Alomran's expertise includes the design and construction and developments, low-rise buildings, residential and commercial developments.

The key strengths of Alomran have evolved through the adoption of industry leading practices combined with the latest construction techniques and processes. Alomran has the experience and ability to create and achieve high quality and cost effective construction solutions for all types of projects. This is achieved by a vast knowledge of the value engineering and design process to drive value without compromise, all of this is then executed to completion by a highly skilled management team with a diverse range of experience.

With a solid foundation successfully in place Alomran continues to combine the best engineering and management practices to offer a range of construction solutions which are constantly pushing the boundary of what can be achieved. Alomran focuses on a complete 360 degree approach to the design and execution of every project. We are excited about the future and look forward to sharing in the success of your next project with you.

Mission

To be recognised across the region as a progressive construction management and contracting company. To be a leader in the construction and contracting industry through implementing intelligent systems and challenging the limits of construction speed and efficiency while maintaining the highest levels of quality and safety.

Our Values

Alomran is committed to a number of fundamental values and takes extensive steps to ensure that our entire team adheres to our business code of ethics. Alomran is proud to set standards in the construction industry in addition to maintaining a strong commitment to Corporate Social Responsibility.

QHSE

Alomran is committed to providing a safe environment and work place for all our employees, subcontractors, and clients. To ensure the successful implementation of the QHSE system for every project and it's continued monitoring and improvement. Alomran has developed and is maintaining a framework for setting, reviewing and achieving measurable QHSE objectives and targets, along with:

- Complying with the requirements of local legislations, codes of practice and exceeding industry standards.
- Providing a system to identify hazards, assess and manage risks and analyse the impacts of every activity in order to prevent personal injury, occupational illness, property damage, and environmental impacts.
- Ensuring that the impact of all our activities on the environment are minimised.
- Having established contingency plans adequate to address all of the identified emergency scenarios.

Ensuring that there is a swift monitoring / review mechanism for QHSE to ensure that the system is working effectively and has the ability to provide for continual improvement of all the processes and outcomes of the system.

GM Message

“

Alomran's management team consists of construction innovators allowing them to think creatively about each project. It is exciting to be a part of such a team and to lead Alomran into new and diverse opportunities.

The team's extensive regional experience is utilized to find optimum construction solutions. The most rewarding part of Alomran's service is creating additional value for its clients through value engineering. Wherever possible, Alomran encourages clients and consultant engineers to bring Alomran into the development and design process at the earliest opportunity, such that Alomran's in-house skills can be fully implemented to reduce cost and shorten project duration. Alomran is committed to raising standards in the construction industry through an innovative management team and diversified labour force that delivers projects on schedule.

Looking to the future, all of the key elements for success for meeting Alomran's goals are already in place. Therefore, Alomran is extending its services across the UAE forging strategic partnerships with local investment companies and developers.

Walid Abdullah Watfeh
General Manger

Our Business Services & Capabilities

Alomran Contracting LLC employs hands-on principles both on the job and in the office. By employment every project with a project management professional, both our firm and our clients can be assured their project is of the utmost importance. All of our projects have the support of the office staff, which ranges from Professional Engineers, senior level estimators, our earthworks department, scheduling professionals, mechanical engineers and more. Alomran Contracting LLC provides a full range of contracting and managing for residential and commercial. As a civil engineering contractor, Alomran Contracting LLC, self performs a mainstream of the divisions of work required to construct a Warehouses or other compound wall & evaporator foundation project.

Alomran Contracting LLC has been a merger shop near its beginning and by being such; it allows our company to be in a position to hire local staff for projects anywhere in the Emirates.

Management & Engineering Capabilities

Alomran provides all clients with a range of Project Management and Engineering services including :

- Value engineering solutions
- Construction programme review and monitoring
- Cost planning
- Construction management
- Project feasibility studies
- Design and build
- Efficiency studies

Construction Capabilities

Alomran has successfully completed projects in many different disciplines and has the capabilities to deliver projects in the following sectors:

- Steel Structural
- Concrete Restoraon
- Residential and commercial low rise towers
- Affordable/social housing and cost effective living
- Luxury villas
- Hotels and resorts
- Infrastructure and civil works
- Submerged structures
- Retail and commercial fit out
- Extensions and renovations

CONCRETE RESTORATION

Concrete restoration, concrete repair, strengthening and Concrete Injection.

We understand how weather conditions, chemical attack, abrasion, poor maintenance and sub-standard concrete installation methods can result in less than desirable and unsafe conditions of your facilities. We have the expertise to provide a cost effective and practical method to restore and repair your concrete.

STEEL CONSTRUCTION CONTRACTING

ALOMRAN CONTRACTING L.L.C is a highly qualified company turnkey solution for installation of steel structure and cladding in UAE. The idea of establishing this company is the UAE market needs for high demand and requirements for a high quality, prompt and also effective steel erection company.

HEALTH AND SAFETY POLICY

OCCUPATIONAL HEALTH & SAFETY POLICY

Alomran Contracting accepts the responsibility to ensure, as far as reasonably practicable, safe and healthy environments for employees and all others who may be affected by the company's business activities.

All possible measures are taken to remove risks to the health, safety and welfare of employees, sub-contractors, authorized visitors and anyone else who may be affected by our operations. We seek the co-operation and suggestions from employees, customers and visitors to assist in realizing our health and safety objective to create a safe working environment with a zero accident rate.

To ensure that these objectives are met, Alomran Contracting has adopted a Occupational Health & Safety Management System that complies with the International Standard OHSAS 18001:2007

Health, Safety & Environment (HSE) matters are the responsibility of everyone within the organization; however, specific duties and responsibilities are set out in the 'Organization for HSE' document that accompanies this policy.

HEALTH AND SAFETY POLICY

THE HSE AIMS OF ALOMRAN CONTRACTING ARE TO:

- ✔ Avoid accidents;
- ✔ Safe systems of work;
- ✔ A safe working environment;
- ✔ Minimize the risk of harm to people, property and environment;
- ✔ Work in partnership with clients, suppliers, enforcement agencies, and co-contractors to promote and provide high standards of workplace health, safety and environmental care;
- ✔ Formally monitor and review HSE performance as a basis for setting HSE targets and continuous improvement;
- ✔ Effectively manage any unforeseen events so as to limit any adverse effects. We will:
 - ✔ Ensure that all management decisions reflect our HSE intentions,
 - ✔ Ensure all employees understand their HSE accountabilities and demonstrate visible HSE leadership
 - ✔ Ensure that our HSE management systems reflect best industry practice and are properly resourced.
 - ✔ We will continually improve by ensuring that lessons are always learned,
 - ✔ Provide direction, education, training and supervision to ensure that all employees understand the required behaviors and the consequences of non-compliance. Good HSE performance is essential for career advancement.
 - ✔ Work with our partners to achieve internationally accepted good practice in HSE and learn continually from each other's experiences,
 - ✔ Adopt a risk-based approach to the design, construction and operation of facilities across their full life cycle, Take account of stakeholder HSE concerns through involving and consulting with employees and their representatives,
 - ✔ communities where we operate, government authorities, customers and shareholders,
 - ✔ Continually improve our HSE performance so that work related ill health and incidents are reduced and so that environmental emissions, waste and the use of energy are reduced relative to activity,
 - ✔ Comply with this Policy and drive HSE improvements by setting expectations and objectives and reviewing, monitoring and auditing performance,
 - ✔ Publicly report on key HSE objectives and performance, fully co-operate with relevant government agencies and work with the industry to improve HSE practices.
- ✔ To facilitate achievement of these aims, Alomran Contracting has established organizational responsibilities and developed safe systems for work.
- ✔ Documented details and specific safe procedures are contained in Alomran Contracting's H&S manual, held at each operational site; this manual is freely available to all employees and to non-employees with a specific interest. Access to the manual is via your immediate supervisor/manager, or for non-employees via Alomran Contracting's Project Manager.
